## Thoughts from Our Director

After a shaky start this year, it looks like April will kick off a good touring season. The Club has four different activities planned in April. They are the rescheduled Warm Springs Tour, Monthly Lunch Bunch, Ice Cream Social, and the Biblical Center Tour. Make sure to check the dates in this newsletter and RSVP where necessary.

In March we had our first Tech Meet. I believe it had the most attendance than any of our previous meetings. Also in March, we had our first Monthly Lunch Bunch of the year. Mark your calendar for our first Ice Cream Social of the year in April. Thank you to all the members stepping up to plan these events.

Many of you know I'm restoring my 1930 Roadster. It has been fun, but also frustrating. I would suggest a new item for the newsletter "Most Stupid Thing of The Month Award", but I am afraid I would win it every month. Even with all my setbacks, hopefully it will be on the road by the end of summer.

As always, if you have any Club questions or ideas, please give me a call.

-Jim Hunter

# *FIRST LUNCH BUNCH OF 2022!*

## Driving Tour and lunch at Golden's on the Square Newnan, GA

The Southside A's Lunch Bunch officially kicked off on March 24 with a tour organized by Kathy Kelly-Huey. Kathy put together a fabulous scenic drive through countryside, past picturesque farms, and back country, that was a real delight.

On the way to a stop at historic Brown's Mill Battlefield, the caravan was halted in order to fix a flat tire on the Huey's A. After making the change, Fred was proud to be awarded the Yellow Chicken, passed along by Larry Peterson. Be sure to

watch out on future tours, where you might just be the lucky recipient of this dubious but distinctive award!

The short stop at Brown's Mill Battlefield featured an impromptu visit with members of the Friends of the Battlefield, who were able to impart great info about the park, how it was developed, and describing the special variety of foot and bike paths that wind through the park. Apparently, much care and planning resulted in easy-to-navigate trails, many of which have informative plaques describing various aspects of the historic battle. We want to make a return trip and take full advantage of the surroundings and the important local history.

Then on we went over more back roads to our lunch destination, Golden's on the Square, in downtown historic Newnan. The weather was fine, the food really good, and the company a pleasure.

## MARCH TECH MEET – A GOOD START TO THE TOURING SEASON

Tom Romine

Our meet was held at Tony Martino's garage in Peachtree City. We looked at two of our Model A's, Tony Martino's and Steve Veid's. The object was to check out these cars and see if they are Road worthy. If not what needs to be accomplished, to make them so. Both cars had repairs and maintenance prior to our meet. We handed out a check list and started to go over the list. Such as overheating, lubrication, brakes and electrical.

With the cars up on the lift we looked at worn parts such as spring shackles and bushings and the need to keep them lubricated. Also the brake rods, for being straight and the need for lubrication. We had a good discussion on different components, looked at things to be repaired, parts that needed to be ordered.

We did not get to look at actual brakes or front end alignment. May be for our next Tech Meet.

Our donuts and coffee were very good and the lunch was extremely plentiful and good. Thanks to Tony and Meghan.

**Attendees:** Pat Tyler; Terry Atkins; Dick Carne; Dave Birch; Ray Besch; Jim Wingo; Jim Hunter; Johnny Hobbs; Steve Veid; Tony Martino; Taylor Merrill; Will Schalk and his son Jackson; Jack Miller; Mark Corley; Larry Peterson; Mark Limmer; Bobby Cleveland; Ben Dyke; T. J. Romine; Tom Romine.

Inside the Museum there are two rooms with reclining tables. The "Jerusalem Biblical Meal Room" is a copy of one discovered at Pompeii. ## Time is getting close

“Keeping the hobby moving forward  
by assisting young Model A’ers”

Every two years since 1994, the Model A Youth Restoration Award (MAYRA) has given financial support to youth who Our reason for doing so is to solidly cement the idea of the Model A hobby in the minds of our youth at an impressionable age with the intent and hope that this will be a lasting association that will help support Model A restorations and the hobby into the future.

There were 12 recipients of the previous awards in 2020, each receiving \$2,500 in financial support. The next awards are in June. Eligible youth and young adults between the ages of 12 and less than 22 are eligible to apply. May 31, 2022, is the final date to apply.

Complete information on the award program can be found on [www.Modelarestitutionaward.org](http://www.Modelarestitutionaward.org).

MAYRA is asking the reader to share this information with anyone interested in the hobby and with his or her fellow Model A club members. Somewhere out there are youth and young adults restoring Model As who will benefit from a financial boost. Please help make that happen. THINK YOUTH !!!

# The Tech Corner

## Jim's Tech Tips "Radiator Hoses"

If there is one thing we take for granted on the Model A engine, even more than the fan belt, it's the radiator hoses. We put them on and expect them to last "forever". But they don't. I've been on more than a few tours where someone ends up with a leaking radiator hose that interrupts their drive.

So today's Tech Tip is to remind you to inspect the radiator hoses and snug up the hose clamps (if needed) every time you change the engine oil. Look for signs of coolant seeping out of the hose, usually at the end. Look for obvious cracks and other signs the rubber is breaking down.

The upper radiator hose is subjected to the hottest coolant while you drive, so that is often the hose that starts leaking first. And the lower steel pipe tends to corrode away from the inside out, where you can't see it until it's too late. So look for coolant weeping down there, too.

A stock Model A does not run a pressurized cooling system, so it does not have a lot of pressure on the hoses. However, if you have a thermostat installed in your upper hose, the hose section between the engine outlet neck and the thermostat sees a lot of pressure when the thermostat is not open. A leak there can pump all of your coolant out in no time at all. So check that area carefully.

It's probably overkill, but to avoid a problem on the road, I replace my radiator hoses and coolant about every 3 years of normal driving. Avoid problems, and *Have a Model A Day!*

## FASHION FINDS...

Here is the final page of “Looking One’s Best in....,” a wonderful series by Jill Barrett of the Santa Clara Valley Model A Club in California. It’s always fun to see what was going on in Men’s fashions, too. You might enjoy checking out items in the Bibliography at the end.

Next month I’ll begin a new series about a fascinating topic.....ZIPPER! Be sure to tune in.

Men’s clothing was like women’s fashions, proper etiquette and correct attire was the norm. Wool was the primary fiber although other fibers were woven in to create subtle patterns. Popular colors included blue, gray, blue and black. In warm climates, lightweight suits were worn without vests.

The year 1928 offered many clothing options, and the beginning of the Model A era. Be sure to read the following articles for each year in this series, Looking Your Loveliest in 1929, 1930 and 1931, to see what a difference a year makes.
