Thoughts from Our Director

I get a bit nostalgic these days, looking back on all of the tours that we've had during the Spring season. After all these years, I never seem to get tired of going on the next tour or day outing with the club. I think it's as much about the people as it is about the cars. Naturally, it's always good to be around a group of folks that like the same things that you enjoy. However, the cars seem to bring us all together simply by being cantankerous. They are never perfect, are they? Would we want them to be? I think not. It would spoil half the fun!

There's one thing for certain these old cars will outlive us, and be passed on to another generation to enjoy. As it has been said many times we are merely caretakers.

So if you were reading this letter and you haven't been out on a tour recently, I highly recommend that you come on out. I don't think you'll ever regret that you do it and you will build a lot of memories of enjoyable times with fine people and Model A's. Look at the enclosed calendar and pick an event to join.

Many thanks to all those that contribute to this club. The enthusiasm, hard-work and passion for just having a good time is appreciated by all. I'm looking especially at you Corley's, Shotwell's and Romine's!

In the meantime, I'll see you down the road.

~Jim Wingo

Southeastern Railway Museum Tour

An enlightening tour!

Our tour of the Southeastern Railway Museum was a step back in time, not only for trains, but also buses, trackless trolleys and Checker Cabs! We had 26 participants from Georgia Region and the SSA's. A great turnout.

From the parking lot next to the railroad tracks, off of busy Buford Highway, you'd never guess the treasures to be found inside the buildings. We saw a train car that was used by FDR during his presidency, and a Pullman car that carried the body of President Warren G. Harding after his death. And Kevin Wood, our guide, regaled us with interesting and charming stories from his time as an engineer as well as a restorer of railroad engines. The museum building housed a great model train display, which delighted some of the young visitors, waving to the passing rail cars.

After our wonderful visit, we headed down the road to a nearby restaurant that was originally a Rexall Drugstore, complete with soda fountain counter. You can still get a sense of how it must have looked. And the food was tasty, too! Thanks to the Corleys for putting this day together for us.

WE HAVE ALSO MADE CONTRIBUTIONS TO YOUTH:

Pasadena High School Model A Ford Club – This is an active program that has been going on for a few years, with the help of their local Model A Club members. They restore a Model A and sell raffle tickets, with the car as the Grand Prize.

Check out this video which tells about the club, the kids, and their work. The first part tells the story in still photos, and then there is film of kids with cars, starting the engine, working hands-on, and more. It's inspirational! Just copy and paste.

We donated \$100 for a raffle ticket, and will give the ticket as a door prize at one of our gatherings! You won't want to miss it!

Model A Youth Restoration Award (MAYRA) – MAYRA has been helping youth financially with the restoration of their Model A's since 1994. Since then 105 awards have been made totaling over \$124,000.00. The program is publicized in The Restorer and Model A News, and the website is linked to those of MAFCA and MARC.

A very worthy organization, to which we have donated \$100.

FASHION FINDS...

This month we begin a look at jabots and Bertha collars from Laurie Elliott of the Santa Clara Valley Chapter, courtesy of the MAFCA website. This is a fun embellishment and accessory. Let's enjoy page 1, for starters.

Jabots and Bertha Collars Add Era Flair to Modern Dresses

By Laurie Elliott, Santa Clara Valley Chapter

When looking at women's afternoon and evening wear of the Model A era, you'll notice all sorts of drapes, flounces, ruffles, ties and streamers that you generally don't see in modern clothing. This can be a bit perplexing when trying to recreate an era look. How do you achieve this without the work of sewing an entire garment? Try adding a jabot or bertha collar to your modern dress.

Jabots

As defined by the MAFCA Fashion Guidelines, "Jabot (*zha-boe*): A pleated frill of lace or cloth attached down the front of a woman's blouse or dress." Historically, men have worn jabots for a few hundred years before being adopted by women in the early 19th century. Jabots were popular during the Model A era and well beyond, for spiffing up an afternoon or evening blouse or dress.

A rule of thumb is the jabot is at least as nice as the fabric in the main garment. It is an embellishing flourish.

Some jabots were sewn to the neckline or collar of a dress, while others were separate pieces pinned to the neckline, usually, but not always at the center. Jabots could be made of the same fabric as the garment, and could be printed or solid material. Whether they were streamlined or heavily ruffled, jabots were usually angular, often coming to a point at the bottom.

The July '28 *Delineator* describes this Butterick dress pattern as having a diagonal slot to insert a fashionable scarf to act as a jabot.

This Butterick pattern, also featured in the July '28 *Delineator* states, "The ripple of the jabot across the front and down the left side gives this simple frock the formality required of afternoon clothes."
